

Using theories and terms from the readings and the "Geert Hofstede on Culture" video, create a flowchart using PowerPoint of a conflict you have experienced or observed at work. Your flowchart should include the root cause of the conflict, the stakeholders, the decisions made during the conflict and the final outcome of the conflict. Also, analyze and identify aspects of the conflict that could have been handled more effectively

******You can use this conflict and outcome at bottom for the powerpoint**

CONFLICT: All employees not getting the opportunity to get overtime. Seniority employees get first chances, while newer employees never get the opportunity. Tension grew between workers

FINAL OUTCCOME: Management created a union employee overtime seniority list. Anytime overtime is offered, the maanger goes down the list and starts from the last person who worked overtime
