

Exercise 1

Please Look at the other attached Excel file for an example

For the attached series calculate the following:

40
42
47
52
24
21
37
22
52
49
62
54
39
43
42
39
49
38
36

1. Sort in Ascending Order
2. Arithmetic Mean using a formula
3. Mean And Median Using “Insert - Function” tool
4. Calculate Mean, Median and Mode using Data Analysis Mode
5. Draw a Histogram of the number series
6. Draw a smooth curve Histogram from result of No.5
