

In 300 words, answer the following questions:

- Why would life on earth as we know it end without plants?
- Why are plants important for animals?
- What benefits do we derive from plants?
- How do you benefit from plants on a daily basis? Identify and explain at least five examples.

Your submission will be graded as follows:

- Accurate description of plants' impact on human life (25 points)
- Accurate explanation of animals' use of plants (25 points)
- Accurate listing of plants' benefits to humans (25 points)
- Five examples of personal benefit received from plants (25 points)
