

Your second case analysis is due at the end of this module. For this assignment, you will develop a formal 2-3 page paper/essay on aviation security. Your paper should follow the APA format, and be grammatically sound, and free of spelling errors. The paper should be written in the third person and double-spaced. It should include a cover page with your name, date of submission, and topic. It should also include an appendix.

Review the [Aviation Security Case Analysis Guidelines](#)   for additional information about this assignment.

Notes:

- Examine the Case Analysis Rubric to identify the qualities of an effective case analysis.
- Submit your assignment by selecting the **Submit Assignment** link. Prior to submitting your assignment, save the file using the following naming convention: **Activity4-5_Yourlastname**.
- This assignment is due at the end of this module.

Important: Retrieve the plagiarism report and use it as a source of feedback to revise your case analysis. In Module 5, you will post your revised case analysis for peer review in the this activity's dedicated peer review forum.
