

## ECO 202 Milestone Three Guidelines and Rubric: Monetary Policies

Continue your observation of the 10-year period selected for Milestones One and Two, and research the government monetary policies during that timeframe.

Specifically, the following **critical elements** must be addressed:

- Examine the monetary **policies** in place at the start of your specific time period in relation to their effects on macroeconomic issues. For instance, consider the discount rate set by the Fed, the rates on reserves, open market operations, and so on.
- Analyze new monetary **policy actions** undertaken by the U.S. government throughout the time period by describing their intended effects, using macroeconomic principles to explain the actions.
- Explain the **impact** of the new monetary policy actions on individuals and businesses within the economy by integrating the macroeconomic data and principles.

**Guidelines for Submission:** Your monetary policies milestone should be 3–5 slides, not including title or reference slides, and include speaker notes to accompany the slides. Your reference list slide needs to be in APA format.

**Instructor Feedback:** This activity uses an integrated rubric in Blackboard. Students can view instructor feedback in the Grade Center. For more information, review [these instructions](#).

Critical Elements	Proficient (100%)	Needs Improvement (75%)	Not Evident (0%)	Value
<b>Monetary Policies</b>	Examines the monetary policies in place at the start of the selected time period in relation to their effects on macroeconomic issues, and provides information in speaker notes	Examines the monetary policies in place at the start of the selected time period, but does not relate them to their effects on macroeconomic issues, or does not provide information in speaker notes	Does not examine the monetary policies in place at the start of the selected time period	30
<b>Policy Actions</b>	Analyzes new monetary policy actions undertaken by the U.S. government throughout the time period by describing their intended effects, uses macroeconomic principles to explain the actions, and provides information in speaker notes	Analyzes new monetary policy actions undertaken by the U.S. government throughout the time period, but does not describe their intended effects, does not use macroeconomic principles to explain the actions, or does not provide information in speaker notes	Does not analyze new monetary policy actions undertaken by the U.S. government throughout the time period	30

# Southern New Hampshire University

<b>Impact</b>	Comprehensively explains the impact of the new monetary policy actions on individuals and businesses within the economy by integrating the macroeconomic data and principles, and provides information in speaker notes	Explains the impact of the new monetary policy actions on individuals and businesses within the economy, but is not comprehensive, does not integrate the macroeconomic data and principles, or does not provide information in speaker notes	Does not explain the impact of the new monetary policy actions on individuals and businesses within the economy	30
<b>Articulation of Response</b>	Submission has no major errors related to citations, grammar, spelling, syntax, or organization	Submission has major errors related to citations, grammar, spelling, syntax, or organization that negatively impact readability and articulation of main ideas	Submission has critical errors related to citations, grammar, spelling, syntax, or organization that prevent understanding of ideas	10
<b>Earned Total</b>				<b>100%</b>
